

Recycling Purification

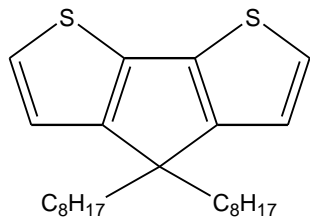

Inductive polymer material (1)

Recycling separation

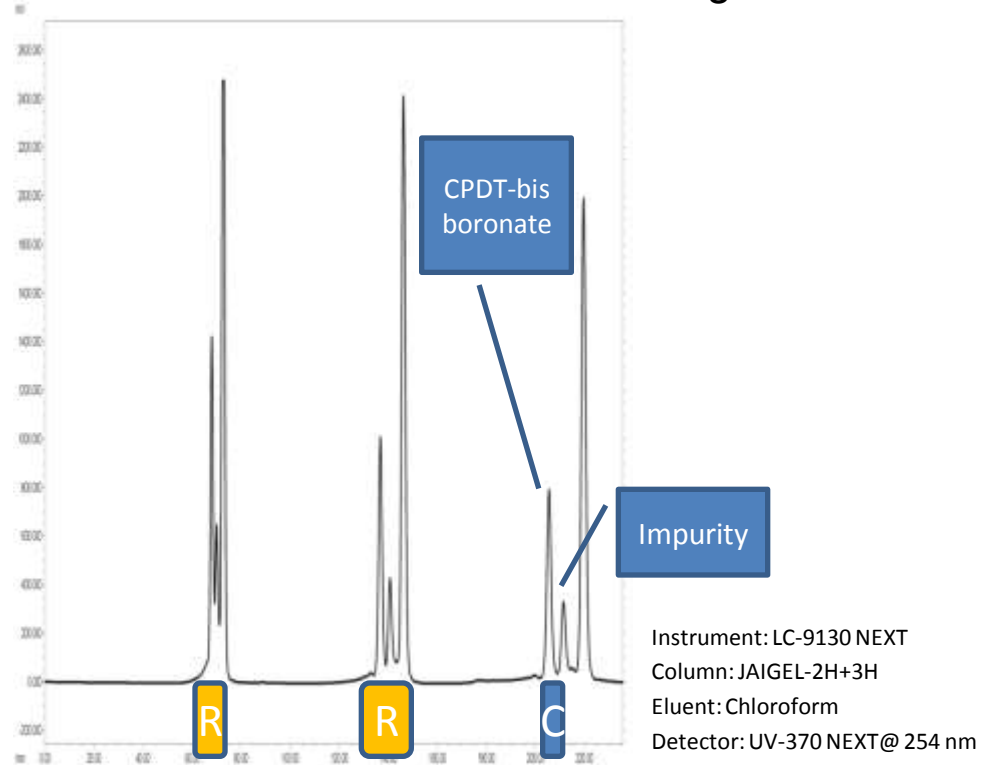

of by-product (impurity) and Cyclopentadithiophene-bis (boronate) to purify the target substances.

Cyclopentadithiophene-bis (boronate)

Impurity

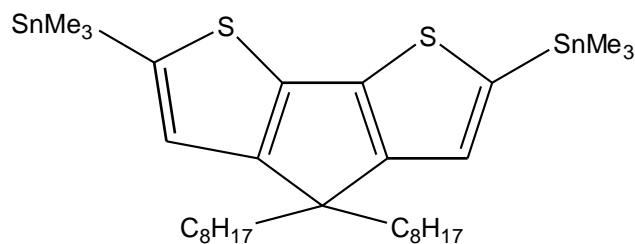

Recycling Purification

Inductive polymer material (2)

Recycling separation

of by-product (impurity) and Cyclopentadithiophene-bis (trimethyl stannane) to purify the target substances.

Cyclopentadithiophene-bis
(trimethyl stannane)
