

Recycling Separation Perylene Derivative

- Main structure of Perylene is fluorescence under black light.
- Can be used as N-type semiconductor material

- Instrument: LC-9110 NEXT
- Column: JAIGEL-1H+2H
- Eluent: Chloroform
- Detector: @ 254 nm

- Instrument: LC-9110 NEXT
- Column: JAIGEL-SIL, SH-043-15
- Eluent: Hexane/Chloroform (70/30)
- Detector: @ 254 nm
