

Dear users of Curie Point Pyrolyzer JHP-5,

We appreciate your continued patronage for JAI and your loyalty to our products.

We regret to inform you that the maintenance service will be discontinued for the Curie Point Pyrolyzer JHP-5. The product has served their purpose since 2001 when they were first launched. The technical support as well as spare parts supply for these models will cease as below depending on manufacturing date.

#### **Affected models**

■ JHP-5 First, Second and Third generation

■ **By 2020 December 31<sup>st</sup>**

First Generation (Type RF-2)

for those manufactured on or before September 2003, SER.NO: A-0001H to C-0031H

Second Generation (Type RF-2)

for those manufactured on or before November 2006, SER.NO: HF03S-0001 to HF03S-0039

■ **By 2022 December 31<sup>st</sup>**

Third Generation (Type RF-4)

for those manufactured on or before May 2011, SER.NO: ARF-0039 to ERF4-0086

A new generation of Curie Point Pyrolyzer system has been introduced. The latest Hybrid Pyrolyzer JHI-08 has the capability of two types of heating method, Curie point and Furnace to support more versatile pyrolysis and thermal extraction with improved usability and efficiency. Portable type of pyrolyzer, Curie Point Injector JCI-55, is also available. These two models promise you to make your pyrolysis steps much easier. Please explore this state of the art instrument on our website.
